

Lynn France
Environmental Services Program Manager
Public Works Department
City of Chula Vista

Lynn France is the Environmental Services Program Manager for the City of Chula Vista. She has broad experience in the recycling and solid waste industries and a Bachelor of Science Degree in Business Administration. Ms. France's environmental career started in the early 1980s, working for paper mills that made recycled paper, managing mobile recycling centers, full service buyback recycling centers and managing material recovery facilities.

Upon the passage of AB 939, Ms. France transitioned to the waste side of the business working for hauling companies as a customer service manager, recycling manager, a material recovery facility manager, governmental affairs and local government contracts administrator.

Ms. France has been with the City of Chula Vista since 2003 managing the City's AB 939 waste diversion and recycling programs, collection and service contracts, a regional HHW program and drop-off facility and a Regional Used Oil Program for the South Bay Region of San Diego County.
